Duratex Transparent Window Film

Product Description
Duratex Transparent Window Film is a 3.0 mil flexible clear vinyl with a removable adhesive designed for use on flat or simple curve surfaces. It has a gloss finish and is extremely clear—no haze or distortion when viewing through it.

Features/Benefits
- Easy removability up to 1 year indoors with a 2 year outdoor durability
- Traction coating on liner aids in processing on common digital printers

Applications
- Temporary short term interior or exterior signage
- Decals
- POP displays on windows

Physical Properties
Film: 2.8 to 3.2 mils
Adhesive: .7 to 1.0 mils
Liner: 2.0 mils
Thickness variance +/- 10%

Typical Performance Values
Dimensional Stability: Good
Minimum Application Temperature: +40° F; Service Temperature Range: -40°F to +180°F
Expected Exterior Exposure: Contains UV inhibitors to extend exterior life. However any clear vinyl film can yellow with exposure to UV radiation. Must be tested for specific usage.
Typical Adhesion Values: To glass 2 oz/in
To stainless steel 2 oz/in
Tested according to PSTC-1 with 24-hour dwell at 70°F and 50% relative humidity.
Typical values. Individual values may vary. Test thoroughly before production.

Water Resistance: Good; Humidity Resistance: Good
Shelf Life: One year shelf life when stored at 70°F and 50% relative humidity.

Storage & Handling
Wet application is HIGHLY recommend (commercial based application fluids such as Rapid Tac II, Window Juice, etc. are suggested). A suede Teflon squeegee or soft squeegee is recommend for Clear PVC films to help in gliding across the surface. A hard edged application tool may scratch the film. Paper application tape is also useful in protecting the vinyl surface during installation. Completely evaporate inkjet solvents before application. Failure to do so may facilitate solvent penetration resulting in vinyl degradation.

Printer Compatibility
Compatible with most solvent, eco-solvent, latex and UV curable inkjet printers.
