Duratex 115g Premium Flag

**Product Description**
Duratex 115g Premium Flag is a backlit, light weight fabric designed for dye sublimation transfer.

**Features/Benefits**
- Warp knitted
- Open weave for excellent bleed through
- Hot knife cut only

**Applications**
- Feather flags
- Outdoor pole flags
- Car flags

**Physical Properties**
- Material: 100% polyester
- Weight: 115 g/m²
- Fire retardant: B1, NFPA 701

**Storage & Handling**
Dye sublimated fabrics are printed with a process where ink becomes part of the fabric, so it’s impossible to damage the print without damaging the fabric as well. This also makes the resulting print washable. If necessary, it should be washed in warm water on a delicate cycle, and dried using a permanent press setting. It can be steamed or ironed using a low temperature setting for delicate polyesters.

**Printer Compatibility**
Dye sub transfer.
