Duratex 52g Silk Flag

Product Description
Duratex 52g Silk Flag is a light weight fabric designed for dye sublimation transfer.

Features/Benefits
- Texturized woven
- Open weave
- Ultra light weight
- Extremely sheer for excellent bleed through
- Hot knife cut only
- Silk-like appearance; flows easily

Applications
- Show flags
- Retail displays

Physical Properties
Material: 100% polyester
Weight: 52 g/m²
Fire retardant: B1, NFPA 701

Storage & Handling
Dye sublimated fabrics are printed with a process where ink becomes part of the fabric, so it’s impossible to damage the print without damaging the fabric as well. This also makes the resulting print washable. If necessary, it should be washed in warm water on a delicate cycle, and dried using a permanent press setting. It can be steamed or ironed using a low temperature setting for delicate polyesters.

Printer Compatibility
Dye sub transfer.
