Storage & Handling Conditions
Material should be handled with white fabric gloves to prevent finger markings. After printing, unused material should be stored upright or suspended in its original packaging. Limited one year warranty when stored at 70 degree Fahrenheit, 50% relative humidity and out of direct sunlight in its original packaging.

Installing - This product can be grommeted for short-term indoor banner applications. Metal grommets should be inserted to penetrate 2-4 layers of materials for increased strength and durability. Standard high tack banner tape can be used for added strength and reinforcement. Sewing the material can scratch or pick off coating. If sewing is desired, it is recommended that the material be double stitched hem side up with a maximum of five stitches per inch. Half moon wind slits are recommended for banners that are 10’ or larger. Corner reinforcements, professional install and proper installation tools are strongly recommended.

Printer Compatibility
Compatible with most Solvent, Eco-Solvent, Latex and UV curable inkjet printers.
