Duratex 8oz Standard Mesh Without Backer

Product Description
Duratex Standard Mesh banner is a lightweight mesh for windy areas. The mesh weave minimizes wind resistance and allows air to pass through the material.

Features/Benefits
- Uniform pattern
- Tough tear resistant base
- Excellent wind flow
- Can be grommeted or sewed for rotating light box application

Applications
- In-store signage
- Building wraps
- Outdoor signage and displays

Physical Properties
Caliper: 17 mil
Denier: 1000 x 1000
Weight: 8oz/sq yd
Air Floating Rate: 70/30
Flame Resistance: NFPA-701
Weave: 12x12

Storage & Handling
Material should be handled with white fabric gloves to prevent finger markings. After printing, unused material should be stored upright or suspended in its original packaging. Limited one year warranty when stored at 70°F, 50% relative humidity and out of direct sunlight in its original packaging.

Installing – This product can be grommeted for banner applications. Metal grommets should be inserted to penetrate 2-4 layers of materials for increased strength and durability.

Trimming – It is recommended that when trimming this material to allow about 0.125-0.25” of white/unprinted border. It is not recommended to “bleed trim” this material.

Printer Compatibility
Compatible with most solvent, eco-solvent, latex and UV curable inkjet printers using mesh kits.
