Duratex Low Tack Wall Vinyl

Product Description
Duratex Low Tack Wall Vinyl is a 6 mil matte white flexible PVC with a clear, low-tack microsphere adhesive supplied on a 90# stay flat liner. Ideal for wall graphics and decals where a removable positionable adhesive is needed. Recommended for smooth painted drywall and includes most flat, semi-gloss and gloss paint finishes.

Features/Benefits
- 90# stay flat liner
- Easy to apply
- Removes without leaving adhesive residue

Applications
- Wall graphics
- Decals

Physical Properties
- Film: 6 mil PVC
- Liner: 90lb
- Finish: Matte
- Gloss level: Matte, Less than 10º(avg.)

Typical Performance Values
The following information on physical and chemical characteristics is based upon tests believed to be reliable. The values are intended only as a source of information. They are given without guarantee and do not constitute a warranty. The purchaser should independently determine, prior to use, the suitability of this material for his/her specific purpose. (Data represents averages and is not intended for use as a specification).

Durability: Removable up to 1 year under normal interior conditions.
*Remove vinyl at 180° angle while pulling parallel to the face of the film slowly.

Minimum Application Temperature: +40°F

Service Temperature Range: –40°F to +200°F

Chemical Resistance: Resistant to alkalies, mild acids, most petroleum based oil, grease and aliphatic solvent and salts.

Typical Adhesion Values:
- 180º Peel Test
- Substrate: Standard testing panels
- 24 hrs.
- 1 to 13 oz. /in.
- Tested with PSTC-1 / 24 hr dwell at 70°F and 50% relative humidity. Due to many paint finishes and types, test surface thoroughly before application of any graphic.

Shelf Life: 6 month shelf life / Store at 70°F and 50% relative humidity.

Printer Compatibility
Compatible with most solvent, eco-solvent, latex and UV curable inkjet printers.
