Duratex High Productivity Backlit Film

Product Description
Duratex High Productivity Backlit Film features a tough, opaque polyester substrate designed for most light box applications. The base material has natural diffusion properties resulting in high impact backlit prints. This product produces vibrant colors with superb light diffusion quality and will withstand heat from prolonged backlit exposure. Excellent for indoor or outdoor light box signage, backlit tradeshow displays and other light box applications.

Features/Benefits
- Vivid under daylight: with or without lighting on the back
- Can be grommeted or sewed for rotating light box application
- Tough tear resistant base
- Extra satin surface produces vibrant images

Applications
- High-resolution posters
- Light box applications
- Special effects displays
- Exhibition panels
- Backlit banners
- Eye-catching applications

Physical Properties
Caliper: 7.5 mil
Coated side: Single side-printed side out
Surface: Satin

Storage & Handling
Material should be handled with white fabric gloves to prevent finger markings. After printing, unused material should be stored upright or suspended in its original packaging. Limited one year warranty when stored at 70°F, 50% relative humidity and out of direct sunlight in its original packaging.

Installing – This product can be grommeted for short-term indoor banner applications. Metal grommets should be inserted to penetrate 2-4 layers of materials for increased strength and durability.

Trimming – It is recommended that when trimming this material to allow about 0.125-0.25” of white/unprinted border. It is not recommended to “bleed trim” this material.

Printer Compatibility
Compatible with most UV curable inkjet printers; limited to certain latex printer models.
