Duratex Economy White Vinyl

Product Description
Duratex Economy White Vinyl is a 3 mil white flexible PVC film coated with a gray permanent pressure sensitive adhesive laminated to 86# poly one side liner. This adhesive produces permanent bonds to a variety of common substrates used in graphics applications. The 86# kraft liner will provide dimensional stability for digital printing and post processing. Available in matte or gloss.

Features/Benefits
• Permanent bond to various substrates
• 86# kraft liner provides dimensional stability

Applications
• Indoor/outdoor signage
• Nameplates
• Decals
• POP displays

Physical Properties
Thickness: Film: 3 mil; Adhesive: .8 to 1.0 mil; Liner: 6.0 mil
Thickness variance +/- 10%

Typical Performance Values
Dimensional Stability: Good under normal conditions. High heat and age may accelerate vinyl shrinkage.
Minimum Application Temperature: +60° F
Service Temperature Ranges: –40°F to +180° F
Expected Exterior Exposure: Up to 2 years under normal exposure conditions
Adhesion: To stainless steel 25 Oz/in. > 7 N/25.4 mm
PSTC-101 Method A with 24 hr. dwell at 70°F (21°C) and 50% relative humidity.
Typical values. Individual values may vary. Test thoroughly before production.

Water and Humidity Resistance: Good
Storage Stability: One year shelf life when stored at 70 °F (21°C) and 50% relative humidity.
Recommendations: Completely evaporate inkjet solvents before application. Failure to do so may facilitate solvent penetration resulting in vinyl degradation.

Printer Compatibility
Compatible with most solvent, eco-solvent, latex and UV curable inkjet printers.
